### About the Montana Food Producers

**Cream of the West** Our company began in 1954 as a small operation that milks, breeds, and markets the highest quality grains grown anywhere in the world to make old-fashioned, whole-grain, hot breakfast cereal—the kind that farmers and ranchers raise every morning. Now, over 60 years later, we still are a rural Montana company that raises grains grown on the plains of Montana to manufacture the 100 percent whole grain products sales by health-conscious consumers everywhere. For more information, visit us at [www.creamofthewest.com](http://www.creamofthewest.com).

**On Thyme Gourmet:** On Thyme Gourmet is a Made-in-Montana, value added, certified organic sustainable product. We grow all our own herbs and hand pick garlic on our Certified Organic Farm in south central Montana. The products are hand harvested, hand processed and hand packed in our processing facility right on the farm to insure fresh, high quality products. We are a national and international award winning Fresh Heeled company. Check out all our other products at [www.onthyme.com/mt.html](http://www.onthyme.com/mt.html)

**Timeless Seeds/Timeless Natural Foods** Timeless was created in 1967 by four American organic farmers to ensure the production from year to year of the past 24 years. It has been the first and only one to grow a complete range of organic, family farmed grains (wheat, Monks and wild rye) in the quality core. The hallmark of Timeless has been the production of wheat and highly nutritious specialty grains like: Dark Wheat, Purple, Purple Tri-Till, and Black Wheat. Chikappa, the company's first, seed-based company in rural Indiana, can talk about a rich and healthy and a 100 percent organic Timeless Natural Food line. For more information, visit [www.timelessfoods.com](http://www.timelessfoods.com).

**Yellowstone Distribution** Yellowstone Distribution is a local business based in Bozeman, MT with a focus on distributing local and regional food products to restaurants, retailers and guest services. For more information, visit [yellowstonedistribution.com](http://yellowstonedistribution.com)

**Gallatin Valley Botanical** Gallatin Valley Botanical is a diversified market garden, cut-flower, and seed business specializing in growing products for the restaurant market and for local individuals and families. Using an ecological approach, we build our soil fertility and manage pests with crop rotation, cover crops, compost and diverse crop plantings. Our goal is to provide high quality, wholesome produce to local consumers. For more information contact Kurt at (406) 884-2291 or M. Richland@live.com.

**Black Beluga® Lentil** Black beluga lentil is very special. It was named by one of our favorite customers for its "coffee bean" appearance since it is coated. At 34 percent protein, the BELUGA is one of the highest of any lentil we've found. Minibeans make the Beluga a good choice for deliciously spiced soups and salads. Try BELUGA as a bed for fish or chicken. Black Beluga Lentil is a registered trademark of Timeless Foods, Inc.

**Purple Prairie® Barley** Most barleys have hulls that are inedible for humans, or are mechanically peeled, which greatly reduces their nutritive value. Our hand-harvested Purple Prairie Barley is naturally hullless, allowing it to retain the full range of whole grain benefits. Not only is the Purple Prairie Barley high in protein and dietary fiber, but its purple seed coat is packed with anthocyanins and powerful antioxidant. Its sweet sticky layer makes the barley an ideal ingredient for soups or salads. Or simply cook overnight, and it's all up in the morning for a breakfasting in no time. Cooks in 30 minutes in a steamer, or in 60 minutes after an overnight soak. (16 oz package)
